Summary

Computers and programming have always been a hobby and during my time at IBM i grew a passion for Web development and design. I decided to study computer science at Lunds Tekniska Högskola, during my time at university I have gained an insight in working in large projects and agile development. I have special interests in scaling and maintaining web applications and build workflows, working with grunt, npm, karma, travis, jenkins and other automation systems is very interesting. Other interests also include sustainable development and environmental impact, value creation in app design and corporate social responsibility projects.

Experience

- 2015–2016 **IBM - Global Business Services Department** Stockholm, Sweden
GBS Junior Consultant
 I joined IBM through the Tekniksprånget initiative. After the internship I got the opportunity to continue working at IBM as a Junior Consultant at IBM GBS. During my time I worked on a CSR project developing a statistic platform for an organisation aiming to increase the use of fully electric taxis in Sweden. I learned full-stack development and worked with both SQL and NoSQL databases as well as multiple web development frameworks.
- 2014–2018 **Ungdomsförbundet Sveriges Flotta** Stockholm, Sweden
Sailing Instructor
Assistant Chief of Boats and Maintenance
 As Sailing Instructor I got experience in group development when working with a new team to successfully overcome problems and secure a fantastic experience for the children who we were teaching. As Assistant Chief I got experience in spotting and prioritizing problems as well as leading a team to fix problems to keep operations running smoothly.

Education

- Current **Master of Science in Engineering, Computer Science and Engineering** Lund University, Lund
- 2012–2015 **High School Diploma** Natural Sciences Norra Real, Stockholm

Other qualifications

- 2019 **Head of introduction and member of the board** Datatekniksektionen inom TLTH
 As the head of the introduction I am the project lead and coordinator for the introduction of all new students for the computer science programs at Lunds Tekniska Högskola. This involves leading a group of 5 other people responsible of coordinating 100+ volunteers and coordination multiple parties involving governing bodies, student unions and the university
- 2018 **Treasurer and member of the board** Datatekniksektionen inom TLTH
 Treasurer at Datatekniksektionen inom TLTH involves doing the accounting and finance for the organisation as well as proposing a budget. As a member of the board I have written policies and regulatory documents for the organisation.
- 2015 **IST: ICT Department** WOSM - World Organisation of the Scout Movement
 At the World Scout Jamboree I got the opportunity to work in the ICT department in the reception desk. I got to experience how a well thought out system can experience difficulties when deployed and how to solve them with limited resources.
- 2016 **Mentor** Code Club
 Code Club is a voluntary initiative aimed at teaching children aged 9 to 11 how to code. It originated from the United Kingdom, and is now supported in Sweden by IBM.
